

Amendments to the Specification:

Please replace paragraph [0092] with the following rewritten paragraph:

[0092] FIG. 4 is a flowchart outlining one exemplary embodiment of a method of electronically managing payment media in a retail store. In this context, the retail store, also known as a retail establishment, may be defined to include a single retail store, multiple stores electronically coupled to the payment media management system 200 (shown in FIG. 2), one or more third party concession stands located within a single store, two or more stores located within a mall, and the like. Generally, the retail store defined above includes one or more payment media originating sources.
